

LANE COMMUNITY COLLEGE
CAMPUS & COMMUNITY CONVERSATION KIT

2017-2022 LONG-RANGE
FINANCIAL PLAN

Introduction

Finance Council, the financial policy and planning body of Lane Community College's governance system, is developing a new long-range financial plan to serve the college for the next five years, with annual updates. This plan will support the college's strategic plan, learning plan, facilities master plan, and other strategic planning efforts.

Broad-based input, in-depth analysis, and a diversity of perspective are essential to this work. This document and complementary online components provide information about the long-range financial planning process and provide a framework for contribution for individuals and groups across campus.

ABOUT THE CONVERSATION KIT

We've created the Campus and Community Conversation Kit as a tool to help you explore, connect, and give feedback about important issues at LCC. The kit has two components:

- A paper document that you can use as a reference, distribute, and refer back to for important information, and
- An online component that allows you to give feedback to decision-makers and learn more about ideas being discussed, as well as updates and resources to round out the conversation.

The paper component of the kit will include all the basic information you need to participate in the conversation, including names and contact information for responsible parties, timelines, and methods and deadlines for feedback. Our goal is to put everything together in one, easy-to-reference document to make it as simple as possible to locate the information you need to schedule and participate in the discussion.
